

BRAYAN JASMANY VEGA GARÓFALO

IT Engineering Graduate

Mail: vegabrayan721@gmail.com Phone: 0995512177 Address: Galo Plaza Lasso, Quito

PROFESSIONAL PROFILE

Junior Fullstack Developer and Graduate from Universidad de las Fuerzas Armadas ESPE (currently completing degree). I have solid experience building end-to-end applications: from database design and backend development using NestJS/.NET, to automation with Power Automate. Thanks to my comprehensive background, I possess a global vision of the software development lifecycle and a strong capacity for problem-solving. Ready to provide value from day one.

WORK EXPERIENCE

Innovation and Development Intern | Alfabet December 2025 - March 2026 (Current)

- Developed a Full Stack solution for managing mobilization, transportation, and flight tickets.
- Built the backend using NestJS and automated notifications and transactional emails by integrating Power Automate.
- Implemented an Auditing System powered by Artificial Intelligence.
- Managed the evaluation and optimization of prompts by designing a distinct Prompt List structure for the internal system logic, as well as the architecture for bidirectional data transmission consuming the Odoo API.
- Built a Customer Service Queue Management System, designing direct integration with Odoo modules to ensure real-time data availability.

Service Desk Intern | Xtrim August 2025 - November 2025

- Resolved technical support tickets for internal users.
- Performed database queries for incident analysis and resolution.
- Logged, tracked, and escalated requests using the service desk tool.
- Supported the documentation of procedures and recurring solutions.
- Achievement: Reduced the average incident resolution time

Infrastructure Intern | Universidad de las Fuerzas Armadas ESPE October 2024 - December 2024

- Updated and diagrammed physical infrastructure in datacenters, and documented rack configurations using technical design tools.
- Assisted in network maintenance and structured cabling tasks.
- Achievement: Contributed to the complete update of the institutional datacenter equipment inventory.

EDUCATION

Universidad de las Fuerzas Armadas ESPE

Information Technology Engineering, 2021-2026 | Graduate / Egresado (Thesis in development)

Colegio Nacional Conocoto

Colegio Nacional Conocoto High School Diploma in General Sciences - 2020
International Baccalaureate (IB) Program

KEY SKILLS

- Programming: PHP, JavaScript, TypeScript, .NET Core, NestJS.
- Databases: MySQL, PostgreSQL, TypeORM.
- Infrastructure & Networks: Datacenter configuration and documentation, rack diagramming.
- Virtualization & Containers: Docker, Docker-Compose.
- Cybersecurity: Basic concepts of network security and secure development.
- Web Development: Frontend and backend with modern technologies.

COURSES

- **Cisco Networking Essentials - Cisco Networking Academy, 2023.**
- **Introduction to Cybersecurity - Cisco Networking Academy, 2025.**
- **Cybersecurity Fundamentals (CompTIA Security+ Module 1) - Udemy, 2025.**
- **Git and GitHub Basics - Desafío Latam, 2025.**
- **Learn Power BI from Scratch - Udemy, 2025.**
- **Develop a Full Stack Application: Practical Guide - Udemy, 2025.**
- **No-Code Intelligent Automation - Desafío Latam, 2025.**

LANGUAGES

Spanish - Native.

English - B1.

SOFT SKILLS

- Analytical thinking and problem-solving.
- Effective communication and teamwork.
- Autonomous learning and adaptability.
- Responsibility and results-oriented.
